

## Lesson: Export and share the 2D drawing

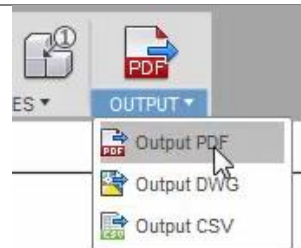

In this lesson, you will export the drawing file as a PDF and share it.

### Learning Objectives:

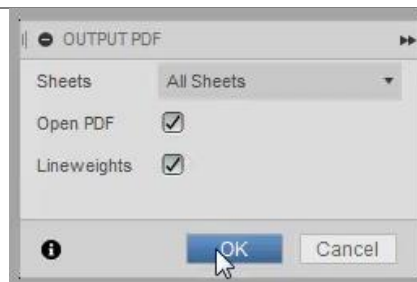

- Create a PDF of a detailed drawing.
- Create a share link.

### Step 1: Export the 2D drawing.

1. Carry on with the drawing file from the previous example. Select Output from the toolbar and choose Output PDF to display the properties panel.

2. Click the Open PDF option and click OK. Choose a location to save the file then click Save. The created PDF will automatically open in a separate window.

3. Return to the Fusion 360 window. Expand the Data Panel. Note that you can click on Open Details on Web to view the PDF in your internet browser. Save the file.
