# Lesson: Practice Exercise

Practice: Change an appearance and create a rendering.

Learning Objectives:
- Change an appearance.
- Create a rendering.

Step 1: Change an appearance and render

1.	Continue with the Wooden Votive Holder file in the render workspace.	
2.	Press "A" to open the appearance properties and apply a new wood appearance. I suggest Wood (Solid) > Stained > 3D Ash.	
3.	Drag and drop the appearance onto the wooden votive holder.	
4.	Create a cloud render of the votive holder.
